Notes:

1. Basis of preparation and summary of significant accounting policies

The unaudited condensed consolidated interim financial statements for the six months ended 30th September 2010 (“Interim Financial Statements”) have been prepared in accordance with the Hong Kong Accounting Standard (“HKAS”) 34 “Interim Financial Reporting” issued by the Hong Kong Institute of Certified Public Accountants (the “HKICPA”) and the applicable disclosure requirements of Appendix 16 to the Rules Governing the Listing of Securities on the Stock Exchange of Hong Kong Limited (the “Stock Exchange”) (the “Listing Rules”). The Interim Financial Statements should be read in conjunction with the Company’s annual report for the year ended 31st March 2010.

The Interim Financial Statements have been prepared on the historical costs basis, except for certain financial instruments, which are measured at fair values.

The accounting policies used in the Interim Financial Statements are consistent with those used in the preparation of the Company’s annual report for the year ended 31st March 2010.

In the current period, the Group has applied, for the first time, the following new and revised standards, amendments and interpretations (“new and revised HKFRSs”) issued by the HKICPA.

HKFRSs (Amendments)	Amendments to HKFRS 5 as part of Improvements to HKFRSs 2008
HKFRSs (Amendments)	Improvements to HKFRSs 2009
HKAS 27 (Revised)	Consolidated and Separate Financial Statements
HKAS 32 (Amendment)	Classification of Right Issues
HKAS 39 (Amendment)	Eligible Hedged Items
HKFRS 1 (Revised)	First-time Adoption of HKFRSs
HKFRS 1 (Amendment)	Additional Exemptions for First-time Adopters
HKFRS 2 (Amendment)	Group Cash-settled Share-based Payment Transactions
HKFRS 3 (Revised)	Business Combinations
Hong Kong (International Financial Reporting Interpretations Committee (“HK(IFRIC)”) — Interpretation (“Int”) 17	Distributions of Non-cash Assets to Owners

The Group applies HKFRS 3 (Revised) Business Combinations prospectively to business combinations for which the acquisition date is on or after 1st April 2010. The requirements in HKAS 27 (Revised) Consolidated and Separate Financial Statements in relation to accounting for changes in ownership interests in a subsidiary after control is obtained and for loss of control of a subsidiary are also applied prospectively by the Group on or after 1st April 2010.

As there was no transaction during the current period in which HKFRS 3 (Revised) and HKAS 27 (Revised) are applicable, the application of HKFRS 3 (Revised), HKAS 27 (Revised) and the consequential amendments to other HKFRSs had no effect on the Interim Financial Statements of the Group for the current or prior accounting periods.

Results of the Group in future periods may be affected by future transactions for which HKFRS 3 (Revised), HKAS 27 (Revised) and the consequential amendments to the other HKFRSs are applicable.

The application of the other new and revised HKFRSs had no effect on the Interim Financial Statements of the Group for the current or prior accounting periods.

The Group has not early applied the following new and revised standards, amendments or interpretations that have been issued but are not yet effective.

HKFRSs (Amendments)	Improvements to HKFRSs 2010 ¹
HKAS 24 (Revised)	Related Party Disclosures ³
HKFRS 1 (Amendment)	Limited Exemption from Comparative HKFRS 7 Disclosures for First-time Adopters ²
HKFRS 7	Financial Instruments: Disclosures — Transfers of Financial Assets ⁴
HKFRS 9	Financial Instruments ²
HK(IFRIC) — Int 14 (Amendment)	Prepayments of a Minimum Funding Requirement ³
HK(IFRIC) — Int 19	Extinguishing Financial Liabilities with Equity Instruments ²

¹ *Amendments that are effective for annual periods beginning on or after 1st July 2010 and 1st January 2011, as appropriate*

² *Effective for annual periods beginning on or after 1st July 2010*

³ *Effective for annual periods beginning on or after 1st January 2011*

⁴ *Effective for annual periods beginning on or after 1st July 2011*

⁵ *Effective for annual periods beginning on or after 1st January 2013*

HKFRS 9 Financial Instruments introduces new requirements for the classification and measurement of financial assets and will be effective from 1st January 2013, with earlier application permitted. The standard requires all recognised financial assets that are within the scope of HKAS 39 Financial Instruments: Recognition and Measurement to be measured at either amortised cost or fair value. Specifically, debt investments that (i) are held within a business model whose objective is to collect the contractual cash flows and (ii) have contractual cash flows that are solely payments of principal and interest on the principal outstanding are generally measured at amortised cost. All other debt investments and equity investments are measured at fair value. The application of HKFRS 9 might affect the classification and measurement of the Group's financial assets.

The directors of the Company anticipate that the application of the other new and revised standards, amendments or interpretations will have no material impact on the results and the financial position of the Group.

2. Turnover and segment information

Turnover represents revenue arising on gross invoiced sales of sports footwear products, net of returns, discounts and sales related taxes.

For the purpose of resources allocation and performance assessment, the chief operating decision maker of the Group, being the Group's chief executive officer, regularly reviews the revenue and operating results analysis by geographical market based on destination of the goods shipped or delivered, irrespective of the origin of the goods.

(a) Segment revenues, results, assets and liabilities

The Group's revenues, results, assets and liabilities are primarily attributable to the sales of sports footwear products. The directors of the Company consider that there is only one operating and reportable segment for the Group.

(b) Geographical information

The Group operates in two principal geographical areas — the PRC and Asia. The Group's revenues from external customers by geographical location are detailed as below:

	Six months ended	
	30th September

6. Income tax expense

No Hong Kong Profits Tax had been provided for the two periods ended 30th September 2010 and 2009 as the Group has no assessable profits arising in or deriving from Hong Kong.

Taxation arising in other jurisdictions is calculated as the rates prevailing in the relevant jurisdictions in which the Group operates. No taxation had been provided for both periods as the Group has no assessable profits arising in or deriving from the relevant jurisdictions.

There was no other material unprovided deferred tax for both periods.

7. Dividend

MANAGEMENT DISCUSSION AND ANALYSIS

Financial Highlights

- Turnover increased by 52% to US\$13.5 million from US\$8.9 million for the corresponding period last year.
- Profit for the period attributable to owners of the Company decreased by 46% over the same period last year to US\$1.6 million.

Business Review

For the six months ended 30th September 2010, the Group's turnover increased to US\$13.5 million from US\$8.9 million for the same period last year. Geographically, Asian countries were the largest market of the Group, which contributed 100% of the Group's turnover for the period under review.

In spite of the significant increase in turnover during the period, the Group's gross profit margin decreased to 7% as compared to 9% for the same period last year, resulting from surging raw material costs, rising labour costs and Renminbi appreciation. The reported gross profit during the period was US\$0.9 million, a slight increase of US\$0.1 million from US\$0.8 million for the last corresponding period.

Other income for the period increased to US\$1.3 million from US\$0.7 million for the corresponding period last year, due primarily to the gain on disposal of the Group's leasehold building in Hong Kong amounting to US\$1.1 million in the current period. No rental income was reported during the period (2009: US\$0.2 million) as the Group had disposed of its investment properties together with the disposal of subsidiaries, which was completed on 30th September 2009.

General and administrative expenses decreased by 22% to US\$0.9 million and as a percentage of sales, decreased from 14% for the same period last year to 7% this period as last corresponding period included one-off government and other administrative expenses relating to the closure of factories as well as the negative effects of idle costs associated to the unused production plants.

The increase in other gains during the period was mainly attributable to the reported gain on disposal of held for trading investments amounting to US\$0.4 million during the period.

Despite the slight increase in the Group's gross profit of US\$0.1 million and the reported gains on the disposal of leasehold building and held for trading investments amounting to an aggregate of US\$1.5 million, profit for the period attributable to owners of the Company decreased significantly by 46% to US\$1.6 million as compared to US\$3.0 million for the same period last year. The decrease was mainly due to the absence of one-off gain from the disposal of subsidiaries amounting to US\$2.8 million which were recorded in the last corresponding period.

Prospect

In light of the rising pressure on production costs and it is likely that these trends will persist in the near future, we expect the Group's profitability in the second half of year 2010/2011 will continue to be under pressure.

Liquidity and Financial Resources

The Group's liquidity and financial resources continued to be healthy and it is debt-free as at 30th September 2010. The reported bank balances and cash were US\$31.4 million, as compared to US\$24.6 million as at 31st March 2010. The increase in bank balances and cash was mainly due to the net cash inflow arising from the disposal of financial instruments and leasehold buildings in Hong Kong during the period.

The Group follows a policy of prudence in managing its working capital. The Group maintains tight control on its credit and collection policies and we have not experienced any significant bad debts in the past.

The increase in the last two months sales for the current period as compared to the last two months sales for the year ended 31st March 2010 brought an increase in trade receivables and payables to US\$3.6 million and US\$1.6 million respectively. The working capital position of the Group's remained strong with an average collection period of trade receivables of approximately 37 days (31st March 2010: 45 days) and 62 days (31st March 2010: 85 days).

The Group generally relies on its internally generated cash flow to finance its day to day operations. There are no material plans for investments and capital expenditures except for the Groups regular annual capital expenditures and we believe that the Group has adequate financial resources to meet its funding requirement for our future business development.

Contingent Liabilities and Capital Commitment

At 30th September 2010, the Group did not have any material contingent liabilities and capital commitment.

Exposure of Foreign Exchange

The Group mainly operates in the PRC. A significant portion of the Group's sales, purchases of raw materials and overhead expenses are denominated mostly in US dollar (i.e. functional currency of the Group), HK dollar and Renminbi. HK dollar is pegged to US dollar, the foreign exchange exposure between US dollar and HK dollar is therefore limited.

Renminbi experienced certain appreciation in recent years and further appreciation of US dollar against Renminbi will affect the Group's financial position and results of operation.

The Group currently does not have a foreign currency hedging policy. However, the management monitors foreign exchange exposure and will consider hedging significant foreign currency exposure should the need arises.

INTERIM DIVIDEND

The directors do not recommend the payment of an interim dividend for the six months ended 30th September 2010 (2009: Nil).

EMPLOYEES AND REMUNERATION POLICY

As at 30th September 2010, the Group had a total of approximately 1,350 (2009: 1,200) full time employees (include contracted manufacturing workers) in Hong Kong and the PRC. The Group's emolument policy is to pay wages and salaries that are competitive in the industry in a way that will be motivational, fair and equitable, and that are dependent on individual and the Group's performance. Apart from salaries, the Group also provides other fringe benefits to employees, which include provident fund schemes and bonus on performance basis.

PURCHASE, SALE OR REDEMPTION OF SHARES

The Company has not redeemed any of its shares during the period. Neither the Company nor any of its subsidiaries has purchased or sold any of the Company's shares during the period.

COMPLIANCE WITH THE CODE ON CORPORATE GOVERNANCE PRACTICES

The Company has complied with the code provisions of the Code on Corporate Governance Practices as set out in Appendix 14 of the Listing Rules throughout the six months ended 30th September 2010, except for the following deviations:

Code Provision A.2.1 stipulates that the role of chairman and chief executive officer should be separate and should not be performed by the same individual. Mr. Lee Chi Keung, Russell is currently the Chairman & Chief Executive Officer of the Company. The Board believes that vesting the roles of both Chairman and Chief Executive Officer in the same person would allow the Company to be more effective and efficient in developing long-term business strategies and execution of business plans. The Board believes that the balance of power and authority is adequately ensured by the operating of the Board which comprises experienced and high caliber individuals with a substantial number thereof being non-executive directors of the Company.

Code Provision A.4.1 stipulates that non-executive directors should be appointed for a specific term, subject to re-election. The Company's non-executive directors were not appointed for a specific term but is subject to retirement by rotation and re-election at the annual general meeting of the Company in accordance with the Company's bye-laws.

Code Provision A.4.2 stipulates that all directors appointed to fill casual vacancy should be subject to election by shareholders at the first general meeting after their appointment. The Company's Articles of Association deviate from Code Provision A.4.2 which provides that any new director appointed by the Board during the year shall hold office until the next following annual general meeting after appointment, and he/she shall be eligible for re-election.

COMPLIANCE WITH THE MODEL CODE SET OUT IN APPENDIX 10 TO THE LISTING RULES

The Company has established written guidelines regarding the required standards of dealing securities of the Company as reference to the Model Code for Securities Transactions by Directors of Listed Issuers ("Model Code") as set out in Appendix 10 of the Listing Rules. All the member of the Board confirmed, following specific enquiry by the Company, that they have complied with the required standard set out in the Model Code throughout the six months ended 30th September 2010.

AUDIT COMMITTEE

The audit committee comprises all the three independent non-executive directors of the Company. The audit committee has reviewed with the management the accounting principles and practices adopted by the Group and discussed internal controls and financial reporting matters including the review of the Interim Financial Statements for the six months ended 30th September 2010.

PUBLICATION OF INTERIM RESULTS ANNOUNCEMENT AND INTERIM REPORT
